

Please review your confirmation letter for the exact address of the cabin you will be occupying. Every effort has been made to provide accurate written directions to our property. Some GPS do not recognize the address or will take you the most direct route--which could be a single-lane gravel road over a mountain. If you can, plan to arrive while it is still daylight, especially if you are unfamiliar with these mountain roads.

Our cabins are located directly off NC-209 approximately 10 miles south of the town of Hot Springs. Be mindful that, although you will be traveling along paved state roads, the last 20 miles (from any direction) are very steep 2-lane, curvy, winding mountain roads--with switchback turns. Fill up your vehicle's fuel tank while in the city areas because fuel stations are few and far between near the cabin and will cost more.
